

Section 7: Safety & Security Policies

7D | Smoke-Free Building

The Library is a public building and its premises, including outdoor areas within fifteen (15) feet of an entrance, are legally designated smoke-free zones. This applies to all forms of smoking, including e-cigarettes and vaporizers.

Any instance of Library users, visitors, or personnel who do not adhere to this policy will be considered in violation of both Illinois law and Library policy. As with any instance of state or federal law non-adherence, local law enforcement may be contacted.
